

AISC-Building Standard, Intermediate and Simple bridges.  
With Fracture Critical and Sophisticated Paint Endorsements.  
AISC-AWS-WABO-CWB-NACE-SSPC

**LETTER OF RECOMMENDATION**  
**Dated 8-26-24**

To whom it may concern,

As the owner of Northwest Steel Fab Inc, I have had the privilege of working with Continental Door Company for many years now. We use Continental Door as our primary door supplier and maintenance/repair contractor.

We have a variety of standard commercial doors to custom doors here at our facility that open and close continuously throughout the day. Door damage/destruction is inevitable due to our heavy industrial industry. It is imperative that our doors operate correctly at all times as we are a welding/painting facility, any wind blowing through our facility can affect the quality of our welds and controlled atmosphere.

I feel Continental Door has always been there when we needed them and fairly priced. I would recommend them for your needs.

Josh James  
Northwest Steel Fab Inc.
